ON TOP AGAIN
JOY & PAIN
LOVE HAVING YOU AROUND
LET'S TALK I'LL LISTEN
LOVE AIN'T DONE
HEROES
UNITE
THAT'S ME

ON TOP AGAIN

How could you know when you walked away
you'd be standing so strong
where you are today

But you pushed right through
The self doubt and pain
Here you are on top again

When you signed up
Expectations were high
It was looking good
And feeling alright

Then before too long
You were seein the signs
There was trouble in paradise

But you pushed right through
The self doubt and pain
Here you are on top again
You tried it all you tried your best
Thought maybe this is just a test
Then it wasn't only bout you anymore
Had to find your way out that door

"How can you go? Love just makes me
crazy!
You'll regret it all some day"
You saw through the gaslight
the stakes were so high
And started to find your own way

You pushed right through
The self doubt and pain
Here you are on top again

Here's looking at you
What I mean to say
They're looking at you
For their own someday
Everyone needs a light
that will guide the way
ya it's you on top again
It's you on top again

JOY AND PAIN

Plucking on this six string
Trying to chase these blues away
Naturally my thoughts return to you
I think of how my life has change for better
forever
Life ain't so bad I'm just glad to be here with
you

Hold the line don't ever let this boat drift
away

Never mind of those troubled times don't
mean much anyway
If I fall please pick me up to face another day
Oh joy and pain

It's funny how you look at things and then
you look away
Taking life for granted living day to day
And then one day you say "Hey how did I
miss that anyway"
Life can change and often should
So be that as it may

When our hearts are dark our souls in
distress

The world around us offer us quite little
Joy gives us wings to soar our spirits truly
free

To see the hidden mysteries of life

LOVE HAVING YOU AROUND

A history of violence
(It's gotta go)
You've gone through some dark days
(This we know)
You've done some bad things
(The record shows)
But I still love you
you need to know

So many times
the wrong path you'd choose
And now you're singing the blues
But I still believe in you
And what you can do

You can build on all you've learned
And all the progress you've earned
Some say strip it all down
But I love having you around

Some don't think you're gonna make it
(but that ain't me)
Some think you're gonna break it
(I guess we'll see)
It's a tricky situation
(It's truth I speak)
It's time to show you're humanity

It's been great watching you grow
And now you're ready to go
And do the things that you were meant to do

But you're running short of time
With so much on the line
Some say strip it all down
But I love havin you around

No I don't like to write folks off
Don't we all deserve a second shot
And when you're there
When you've finally arrived
I'll raise one
Cause you'll be one
Won't that be fun?

I know that you can do it
(Yes you can)
And that you will get through it
(It's part of the plan)
And when you're grown up
(They grow up so fast)
You'll be united
Mature at last

No matter what problems you face
You're still my favourite race
Don't get down on yourself
Cause you're gonna get there someday
You gotta figure it all out
But I know without a doubt
You're gonna step it on up
Cause I love havin you around

LET'S TALK I'LL LISTEN

I stared into the abyss
I was over all of this
Then a friend I didn't know that I had
Reached out
And so now when I'm sad

I think of you
Needing someone that knows
Even in the desert a flower grows
Feel your heartbeat
It's strong just like you

let's talk I'll listen
If you need a friend that's a given
If this life should end
Start a new one
And we'll be your family

Here on the edge
Full of sorrow
Know that there's hope
For tomorrow

Ya I was there but helping you
Is helping me

So tell me what brought you here
Was it hopelessness or fear
Your story matters to me

Now people are starting to see

We're all looking
For something that's real
You've come so far
You're trying to heal
I don't know you
But I know how you feel

Chorus
Our past was a lesson
And not a life sentence
Mistakes ya I got "em
Let this be your rock bottom
With love in our hearts

LOVE AIN'T DONE WITH YOU YET

I saw your pain the other day
Sometimes it's hard to find what to say
But I know a thing or two
About what you're going through.

It's not how we drew it up
Or thought it would go on that shining day
But life can change and so do we
For better or worse

I've had mornings so sad and lonely
If there's one thing you should never forget
Love ain't done with you yet

So here you are what's the plan
Some things you'll never understand
So take some time and let your heart unwind
Yeah I've been there
Alone and lonely
If there's one thing you should never forget
Love ain't done with you yet

And when that coffee cup seems more full
than your heart just have faith
that better days await

HEROES FOR GOLD

As I look up to you
I can see how I want to be
A shining example
Of the things I believe
In the dark of the night
I can still hear that Nightingale
Singing it's sweet melody

But for now I digress
To a world of uncertainty
Where pillars of truth
Are few and far between
Now we need you more than ever

So our heroes to be
Have a vision a goal and dream

I'm lucky I guess
To have someone there for me
Like a beacon showing the way
The life I want to live is truly attainable
I'll never trade my heroes for gold

When you think of what's best
For the world of humanity
The oneness of it's peoples
Like the waves of one sea
Now we need it more than ever
So generations to be
Live in peace as one family

I'm lucky I guess
To have someone there for me
Like a beacon showing the way
The life I want to live is truly attainable
I'll never trade my heroes for Gold

UNITE

Looks like when it comes
To this diversity thing
Some of us
Have clearly missed the point

Now we look
For just one song to sing
And need a refrain
All can join

That leaves us with just one option
Unite

Hearts are breaking
The toll that's been taken
Deep wounds from a colonial past

There's Justice to be done
Through the lens "we are one"
Until we find peace at last

How's this for an action item
Unite

Gotta Get past the victor
And the vanquished
We've got enough for everyone to thrive
Doesn't have to be a competition
We're all in it
Let's all win it
We're all in it
Let's all win it

Just gonna leave this one word with you

THAT'S ME

When you're sitting in the dark
Looking at the stars

I feel your love surrounding me
So I'll send a little sign
To show you I am fine
Many things are real that we can't see
You miss me
I'm not that far
You can't touch me
But you feel my heart
This bird has a Bursts cage asunder
Eyes wide and filled with wonder
Think of me and feel a little breeze

That's me

I know some might say
I was taken away
And ask how this can be just of fair
These mysteries abound
I am not lost but found
And my hope is that you won't despair
An eagle flies overhead
That song I sang gets in your head
You get inspired and ask how can this be?

That's me

When that day comes
When you're born to this world eternal
You will find me in an ocean of light
From the highest peaks
We'll gaze on what no pen can describe
So that it from here
Now you know I am near
As well I am in great company
So from time to time
I'll drop you a line as
Soon begins our sweet eternity

ACKNOWLEDGMENTS

I'm so very thankful for the love and support from Sarah Zaat. Always in my corner Sarah was integral in the production of this record. Warren Beatteay not only played so well but is a true friend and I thank him for that. My talented and beautiful daughter Marla was a huge help in the development of these songs and her input was essential. Page Gallant came along and gave the background vocals a lovely and distinctive sound and became a wonderful friend. Sue Rose's contributions to the album's artwork not to mention her lovely paintings that comprise the That's Me book add a beautiful lustre to the whole project. Thanks Sue. Dylan Ward brought his many talents to bear in the recording process and was a joy to work with. Keep your eye on him. The influence of Brent Mason's songwriting mentoring is all over this record. Brother Jeff Zaat has always supported me as a soundboard and advocate. I love that guy! Big thanks also to Ann Boyles, Gordi Munro, Annie McCullum, Ethan Zaat, Mark Watts, Chuck Teed, Hilary Ladd, Elaine, Boulanger, Trish, Graeme and the crew at Beats & Bytes
